Oxfordshire

[Need not Greed Oxfordshire](#)

Helen Marshall info@neednotgreedoxon.org.uk

Need not Greed Oxon is a campaign dedicated to protecting Oxfordshire's rural environment, whilst recognising the development and infrastructure needs of our residents.

[Only one Oxford](#)

Evelyn Sanderson esandersonox@gmail.com

We are a network of groups and individuals campaigning for our environment and a livable socially just future in Oxford and beyond. The 2036 Local Plan, passed by Oxford City Council in June 2020, allocates land for businesses and housing for GROWTH far beyond the needs of Oxford's residents and visitors. This threatens our green spaces, the lungs of the city, on which people and nature depend, worsens flooding risk, pollution and our carbon footprint. The Local Plan is no longer fit for purpose with the climate and ecological emergencies and changes post COVID. This destructive plan for the land and fabric of our city should be urgently reviewed before it is too late.

[Campaign for the Protection of Rural England Oxfordshire](#)

Professor Richard Harding prof.richard.harding@gmail.com

CPRE Oxfordshire is an independent environmental charity, part of a nationwide network of county branches and regions. The Campaign to Protect Rural England Oxfordshire works to improve, protect and preserve the landscape of Oxfordshire and its towns and villages for the benefit of everyone.

[Oxford Diocese Environmental Action](#)

Hannah Mann Hannah.Mann@oxford.anglican.org

Since Diocesan Synod declared a climate emergency in March 2020, our Environment Task Group (ETG) is overseeing an ambitious programme of change, with three key strategic aims.. 1. Equipping our people 2. Caring for our places 3. Working in partnership. As Christians, we're called to care for God's creation, and the climate issues facing our planet are hugely important to us. You can watch a series from Bishop Olivia on why we should care for creation at all levels in the Church, and read about our commitments to becoming an Eco Diocese.

[Oxford Diocese Greenshoots](#)

Hannah Mann Hannah.Mann@oxford.anglican.org

Greenshoots is a network that connects people from across the diocese who are wanting to take environmental action. With over 50 people now in the network, there are so many exciting stories to share, lessons to learn and experiences to exchange. Whether you are working towards Eco Church awards, or just thinking about where to start on this journey, being part of Greenshoots can support you along the way. The network is a forum for people to exchange questions and ideas over email, and it also meets online once a month, to hear from external speakers and from parishes about their activities. Greenshoots Network host Alison Riggs gives a flavour of some of the topics and ideas discussed this summer.

Communities for Zero Carbon Oxford is a collective of local environmental groups in Oxford. We work with residents and local organisations to reduce carbon emissions and build green and thriving communities. As part of 2022's Great Big Green Week, Communities for Zero Carbon Oxford released Energy Saving bite-size films, a series of 2-4 minute films. Funded by the Low Carbon Hub and Oxford City Council, the films are all about how to save energy in your home – with examples from real people.

Film 1. Low-cost energy saving measures from Oxford residents that cost less than £10.

Film 2. Insulating your walls, loft and floor

Film 3. Air source heat pumps

Film 4. Solar panels and storage

Film 5. Double or triple glazing and ventilation

Film 6. Help with finance

Film 7. Opportunities for contractors

[Christian Concern for One World](#)

Maranda St John Nicolle maranda@ccow.org.uk

We offer resources for prayer and action on a wide range of issues, with a focus on trade justice, fair trade, climate change, and responses to refugees. We help to plan local and national events at which people can gather information, spend time in prayer, and join in conversation and planning with others who care about the same questions. And we've played a major role in campaigns from Jubilee 2000 to Pray and Fast for the Climate to local Fairtrade Town bids.

[A Rocha UK](#)

uk@arocha.org A Rocha UK is the only national Christian conservation charity that works to nurture and protect nature as part of loving and serving our Creator God. A Rocha UK is working with partners to promote effective nature-based solutions to address climate change. These include creating innovative ways of planting native tree belts to lower local temperatures and provide shelter, creating new wetlands to lessen the impact of flooding, adapting vegetation types to lessen the risk of fires, and growing food in a way that benefits wildlife to support sustainable communities.

[Tortoise Media - Net Zero Sensemaker](#)

[Join Tortoise Net Zero Sensemaker](#)

Tortoise Media takes news slowly, investigates and focuses on the stories that matter. The Net Zero Sensemaker, a weekly newsletter, builds an agenda for climate action Net Zero This free weekly email update is on how we can build an agenda for climate action.

[Greenpeace UK](#)

The challenges we face: Rising sea levels, more extreme weather events, loss of biodiversity. Our climate is breaking down and destructive industries continue to threaten our forests, oceans and air. But together we can overcome these challenges. Learn more about what Greenpeace is doing to protect our natural world for future generations.
